

Covid-19 Resources from the Education Endowment Foundation (EEF)

Supporting schools and parents to make the most of home learning.

[Click here](#) to be taken to the EEF COVID-19 Resources page.

The EEF has produced a set of resources for schools and parents to use to support home learning. These resources are evidence based using the recommendations of previous published guidance and other research reports.

There are four strands:

 <p>Support resources for schools</p> <p>Tools for schools to help support home learning and maximise the impact of work set.</p>	 <p>Support resources to share with parents</p> <p>Resources to share with parents on how to support home routines.</p>
 <p>Best evidence on supporting students to learn remotely</p> <p>Rapid evidence assessment examining the existing research to support the remote learning of pupils.</p>	 <p>Useful links</p> <p>Additional resources to support schools and parents.</p>

While there may be some repetition here with resources you have already found, the emphasis on strategies identified through proven, research-based evidence is a useful addition to the wide and ever-changing range of materials being posted, promoted and recommended.
